all about biting - ccie.com

Hitting, kicking, biting, throwing objects, and other behaviors common during a temper tantrum or meltdown can greatly increase parent stress. 1 To make things worse, a vicious cycle can begin so that behavior problems increase stress and increased stress (together with fraying nerves and poorer parental responses to the behavior) result in even worse behavior problems. 2

New Research on Children with ASD and Aggression

Ask any parent whether she wants her child to be an aggressive person and you are likely to get more than one answer. After all, aggression is associated with both approved and disapproved behavior in our minds and in our society both with the energy and purpose that help us to actively master the
