Political affects in public space: normative blind-spots in non-representational ontologies Clive Barnett Recent theoretical debates in human geography have been characterised by a preference for ontological styles of argument. The ontologisation of theory is associated with distinctive claims about rethinking "the political". This paper draws on an avowedly "non-representationalist ...

What is non-representational theory? | Paul Simpson Geography

At its most bold, non-representational theory aims to overturn the very constitution of geographical knowledge production. Rather than creating an alternative systemic epistemological and ontological framework, however (which would re-install the problem of representational thinking), it does this through a number of tenets which seek to engage and present (rather than represent) the ...
